Friday, 26th February, 2021

Dear Residents, relatives and friends,

Finally some glimmers of light at the end of the tunnel, we are moving forward with cautious optimism.

We are all so grateful for the unfaltering support of the team at Ramsbury Surgery with the roll out of vaccines and throughout this pandemic.

10 staff members have now received their second Pfizer Bio-Ntech Vaccine. The rest of the team will be receiving theirs on Tuesday, 2nd March along with all the residents.

Needless to say, this will help to make us all feel safer and enable us to start opening up the home.

As you will have seen in the news, from Monday 8th March, we will be opening up for 1 designated visitor per resident with Lateral Flow testing. We will also be facilitating garden and window visits and trust that everyone will respect our infection control and prevention processes. Of course we will continue with Skype calls and phone calls to support everyone staying in touch.

To book your visits, please call the home (ideally Mon – Fri 9-3pm). Visiting times will be:

Mon., Tues., Thurs., Fri., Sat. 10:30 LFD Test at Green Gazebo for 11:00 Visit
14:00 LFD Test at Green Gazebo for 14:30 Visit

Please read the most recent Covid-19 Visitors Policy March 2021 V.1 attached.

Best wishes to you all,

Helen Peach
Registered Manager
